

Fact sheet **ECO-Skate** ICFXN20D

Container Load moving system, steerable, 4-load points

HTS

Specification:

Container transport skates for the professional indoor transport of ISO containers on clean, smooth and level floors, inc. alignment bars, flat plate with ISO container cone or container twist lock system (TLS) and high-quality HTS Nylon wheels, which are abrasion-resistant and non-marking and suitable for all smooth and level floors. In combination with an ISOCON load moving system (DUO, S, ROTO) with the same installation height, these skates form a safe system with 4 load points for ISO containers. Please note the steering angle of max. 45°. When fully utilized steering angle of the skate system, no additional steering angle of the system must be made (see operating instructions).

Technical data of load moving system:
